

# Petra Universal Synthetic Transfer Case Fluid

PN 83032 (32 FL OZ)  
Technical Data Sheet

## Product Description:

Petra Universal Synthetic Transfer Case Fluid is a high-performance synthetic transfer case fluid designed for select OEM transfer case applications. It is formulated on high-quality synthetic base oils and utilizes a shear-stable viscosity modifier as well as robust extreme pressure and antiwear additives to provide maximum protection to gears and bearings. Thermal and oxidative stability is superior. It also provides excellent wet-clutch performance and is water tolerant.

## Features and Benefits:

- High quality synthetic base oils
- Premium, shear-stable viscosity modifier
- Robust EP/AW additive package, water tolerant
- Wide-operating temperature range with excellent low-temperature properties for maximum protection and fuel efficiency
- Stay-in-grade performance to ensure no viscosity loss due to shear-thinning
- Excellent protection for gears and bearings as well as stable and durable friction performance in applications utilizing clutches

## Suitable for Use in these Applications:

- Transfer case applications requiring API GL-3 or ATF type fluids\*
- AC Delco Auto-Trak II Transfer Case Fluid PN88900402
- Mopar NV245/247/249 Transfer Case Lubricant PN05016796AD
- Mopar BorgWarner 44-40/44-44 Transfer Case Lubricant PN68049954AC
